Hideout Range Guide

Every open-plan workspace needs its quiet zones to allow individuals and teams to truly focus and block out distraction, so we designed the Hideout range.

Hideout's high backs and stylish wings create a semi-enclosed space that absorbs noise and offers privacy for individual concentration or casual meetings.

Hideouts come in two sizes – seating either one person or two – and can be placed opposite one another to create booth-type configurations.

Key Features

High-backs and wings to form a semi-enclosed space

Offers privacy and reduces background noise

Specially-designed, stylish wing arms

Can be upholstered in an array of fabrics and vinyls

Two-tone upholstery option available

Brushed stainless steel sled style legs

Top: Hideout for One: a quiet retreat for one person to touch down and work in peace. Position two units opposite each other to create a great collaborative space for 2 people.

Middle: Combine Hideout for One and Two, to form private spaces for creative collaboration and casual meetings.

Below: Hideout for Two: comfortable for two people and a great space to work together in harmony, or you can place another unit opposite to create a peaceful hangout for 4.

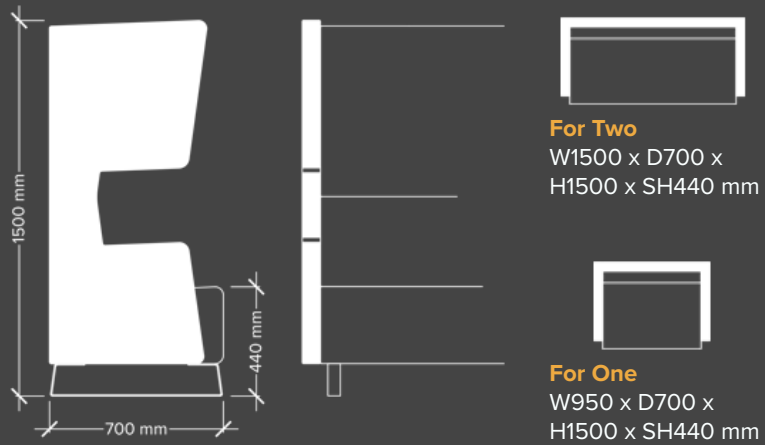

Over Page

Below: Hideout being used by staff at Tapestry - a media production agency in Soho, London.

Hideout Dimensions

Hideout pods come in two sizes – seating either one person or two – and can be placed opposite one another to create booth-type configurations.
