Luna Range Guide

Luna Booths draw inspiration from banquette seating but add a distinctive design twist to cater for the modern workspace environment.

Feature MFC end-panels follow the profile of the seats to create Luna's signature look whilst the panel back upholstery provides a clean, crisp and ultra-modern finish.

Luna Booths are available with either a 1200mm or 1400mm high back, with Luna Pods providing a canopy top, to create intimate spaces for meetings and collaborative work.

The Privacy option within this range features a back screen that can have a TV or monitor mounted; the Booth-only option has no back screen and is designed to run along walls in back-to-back configurations.

## Key Features

Great for creating spaces for informal meetings, breakout and canteen areas

Available with 1.2m and 1.4m height backs, as well as with a canopy for extra privacy

Privacy screens can be configured to accommodate media screens, as well as power and data connectivity.

Double sided seats can be used in back-to-back runs of booths, to help create a clean aesthetic.

Upholstered in an array of fabrics and vinyls

Feature end panels available in white, grey and oak, as standard

Two-tone upholstery option available

**Top:** Luna 4-Person Privacy booths form great informal meeting spaces, and can be configured to include connectivity options for a range of media and power accessories.

**Middle:** Position Luna 4-Person booths against a wall or in an open space, allowing access from both sides - great for canteen areas and workspaces alike.

**Below:** Standing at 1960mm tall with an angled roof, Luna Pods are the most private and greatest noise cancelling meeting hubs within our entire range.

### Over Page

**Below:** Privacy booths can be configured in a back-to-back style, allowing for runs of booths in any quantity. Double-sided centre seats create a clean and seamless aesthetic between booths.

## Luna Dimensions

Luna Booths are available with either a 1200mm or 1400mm high back which can create intimate spaces for meetings and collaborative work and are available in 4- and 6-person options.
